**Community of practice - Wikipedia**
Overview. For Etienne Wenger, learning is central to human identity. A primary focus of Wenger's more recent work is on learning as social participation – the individual as an active participant in the practices of social communities, and in the construction of his/her identity through these communities (Wenger, McDermott & Snyder 2002). In this context, a community of practice is a group of

Thinking together: What makes Communities of Practice work
Aug 25, 2016 · The idea of Communities of Practice (CoPs) has been around for 25 years, and it has found its way into people’s professional and everyday language (Wenger, 2010). Put simply, CoPs refer to groups of people who genuinely care about the same real-life problems or hot topics, and who on that basis interact regularly to learn together and from each other (Wenger et al., 2002).

Communities of Practice (Lave and Wenger) - Learning Theories
Jul 16, 2014 · Summary: Etienne Wenger summarizes Communities of Practice (CoP) as "groups of people who share a concern or a passion for something they do and learn how to do it better as they interact regularly." This learning that takes place is not necessarily intentional. Three components are required in order to be a CoP: (1) the domain, (2) the community, and (3) the practice.
