With your own business, you can decide what hours you want to work, services to provide, and work from home if you choose! This book will help you SUCCEED!

Superconnector-Scott Gerber 2018-02-27 Abandon the networking-for-networking's-sake mentality in favor of a more powerful and effective approach to creating and enhancing connections. STOP NETWORKING. Seriously, stop doing it. Now. It is time to ditch the old networking-for networking's-sake mentality in favor of a more powerful and effective approach to creating and enhancing connections. In Superconnector, Scott Gerber and Ryan Paugh reveal a new category of professionals born out of the social media era: highly valuable community-builders who make things happen through their keen understanding and utilization of social capital. Superconnectors understand the power of relationship-building, problem-solve by connecting the dots at high levels, and purposefully cause different worlds and communities to interact with the intention of creating mutual value. How can you become a Superconnector? Gerber and Paugh share instructive anecdotes from a who's who roster of high achievers, revealing how to systematically manage a professional community and maximize its value. Of utmost importance is practicing Habitual Generosity, acting on the knowledge that your greatest returns come when you least expect them, and that by putting others' needs first the good karma will flow back to you tenfold. Gerber and Paugh also explore winning strategies such as The Art of Selectivity, a well-honed ability to define which relationships matter most for you and decide how you will maintain them over time. Full of helpful advice on how to communicate with anyone about anything, Google-proof your reputation, and much more, Superconnector is a must-read for those seeking personal and business success.

Stock Investing for Dummies-Paul Mladjenovic 2009-08-31 The stock market has been a cornerstone of the investor's passive wealth-building program for over a century and continues in this role. This decade has been one huge roller coaster ride for stock investors. Fortunes have been made and lost. With all the media attention, all the talking heads on radio and television, and the books with titles like Dow at 36,000, the investing public still didn't avoid losing trillions in a historic stock market debacle. Sadly, even the so-called experts who understand stocks didn't see the economic and geopolitical forces that acted like a tsunami on the market. With just a little more knowledge and a few wealth-preserving techniques, more investors could have held onto their hard-earned stock market fortunes. Cheer up, though: This book gives you an early warning on those megatrends and events that will affect your stock portfolio. While other books may tell you about stocks, this book tells you about stocks and what affects them. This book is designed to give you a realistic approach to making money in stocks..... Stock Investing For Dummies, 3rd Edition, is also quite different from the "get rich with stocks" titles that have crammed the bookshelves in recent years. It doesn't take a standard approach to the topic; it doesn't assume that stocks are a sure thing and the be-all, end-all of wealth building. In fact, at times in this book, I tell you not to invest in stocks. This book can help you succeed not only in up markets but also in down markets. Bull markets and bear markets come and go, but the informed investor can keep making money no matter what. To give you an extra edge, I've tried to include information about the investing environment for stocks. Whether it's politics or hurricanes (or both), you need to know how the big picture affects your stock investment decisions.

Accounting All-in-One For Dummies-Kenneth Boyd 2014-03-10
